

### We have upgraded our computer systems

With the help of Spring Point Solutions we have upgraded our databases, motor inventory, accounting and purchasing systems to a new all-inclusive system called MotorBase. This new system will streamline our work and sales order entries. Look for changes to your invoices and POs! If you would rather receive your invoice or PO via email, please [contact us](#).

### Did you know?

*Inman Electric Motors provides short-term and long-term storage in our warehouses for any size motor, pump or drive. Same day pick-up and delivery is available when a motor is needed at your facility.*

### Baldor Distributor of the Year

*Jim Bolelli, our Sales Manager receives an award from Baldor/Reliance for Outstanding Distributor in 2012—our third year in a row!*

### Our new VPI tank is up and running

Our new 12' vacuum pressure impregnation (VPI) tank is installed and ready to go! With more than 8,000 gallons of VPI resin inside, this tank is the largest VPI tank in the Midwest. See our [website](#) for additional information.

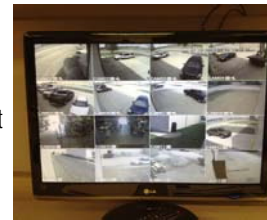

### Your motors are fully protected from fire and theft

*The main building Fire Protection Riser Assembly.*

Over the past year we have greatly improved our building's safety and security. By adding a fully equipped NFPA13 fire protection system and fire alarm system, you can rest assured that equipment being repaired and stored at our facility is being monitored 24/7. Our new security system includes video surveillance, motion detectors and automatic law enforcement dispatch.

*Our security cameras hard at work*
